➤ What is this product?

Type: The Fund is a sub-fund of the GCM Grosvenor Alternative Funds ICAV, an umbrella type Irish collective asset management vehicle with variable capital and segregated liability between sub-funds registered with the Central Bank of Ireland ("CBI") on April 18, 2017 pursuant to Part 2 of the Irish Collective Asset-Management Vehicles Act, 2015.

Term: No fixed term.

Objectives: The Fund's aim is to generate a superior absolute and risk-adjusted rate of return with low performance volatility and low correlation with global equity and fixed-income markets, over a full market cycle; and to preserve capital during challenging market environments. The Investment Manager (GCM Grosvenor LP) seeks to achieve these investment objectives by allocating the Fund's assets to GCM Grosvenor Select Master Fund (the "Master Fund"), a sub-fund of GCM Grosvenor Alternative Funds Master ICAV. In turn, the Investment Manager will allocate the Master Fund's assets into funds or accounts managed by a diverse group of investment managers that employ a wide range of "alternative" investment strategies.

Intended retail investor: This product is intended for investors who are financially sophisticated and prepared to take on levels of risk that may jeopardise their original capital in order to get a higher potential return; and who plan to stay invested for at least 5 years. It is designed to form part of a portfolio of investments.

Investors must (a) Receive an appraisal from an EU credit institution, a MiFID firm or a UCITS management company that the investor has the appropriate expertise, experience and knowledge to adequately understand the investment in the ICAV; or (b) certify that they are an informed investor by providing the following: (i) confirmation (in writing) that the investor has such knowledge of and experience in financial and business matters as would enable the investor to properly evaluate the merits and risks of the prospective investment; or (ii) confirmation (in writing) that the investor's business involves, whether for its own account or the account of others, the management, acquisition or disposal of property of the same kind as the property of the ICAV. Investors must also certify in writing to the ICAV that they meet the minimum criteria specified above and that they are aware of the risk involved in the proposed investment and of the fact that inherent in such investment is the potential to lose all of the sum invested.

Depository: The Fund's assets are held through its Depository, which is Mitsubishi UFJ Investor Services & Banking Luxembourg S.A., Dublin Branch.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

 The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: CHF 10,000		1 year	5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

¹This type of scenario occurred for an investment from 01/2018 to 01/2023.

²This type of scenario occurred for an investment from 08/2019 to 08/2024.

³This type of scenario occurred for an investment from 02/2016 to 02/2021.

➤ What happens if Carne Global Fund Managers (Ireland) Limited is unable to pay out?

The assets and liabilities of the Fund are segregated from those of the PRIIP Manufacturer. The assets of the Fund are held in safekeeping by the Depository. In the event of the insolvency of the PRIIP Manufacturer, the Fund's assets in the safekeeping of the Depository will not be affected. In the event of the insolvency of the Depository, you may suffer financial loss. There is no compensation or guarantee scheme in place which may offset, all or any of, your loss.

➤ What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- CHF 10,000 is invested

Example Investment: CHF 10,000	If you cash in after 1 year	If you cash in after 5 years
Total costs	CHF 552	CHF 3,260
Annual cost impact(*)	5.52%	5.52% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.97% before costs and 1.45% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	Entry costs	We do not charge an entry fee.	CHF 0
	Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	CHF 0
Ongoing costs taken each year	Management fees and other administrative or operating costs	5.26% of the value of your investment per year. This is an estimate based on actual costs over the last year.	CHF 526
	Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	CHF 2
Incidental costs taken under specific conditions	Performance fees and carried interest	0.24% The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. For additional information with regards to the performance fee please refer to the prospectus.	CHF 24

➤ How long should I hold it and can I take my money out early?
